## JOIN BYOD NETWORK

Turn on WiFi

1. Click on NTCS-BYOD

2. Enter the WiFi password.

You will be connected to the school's WiFi network but not the Internet. To connect to the Internet you need to download and install certificates.
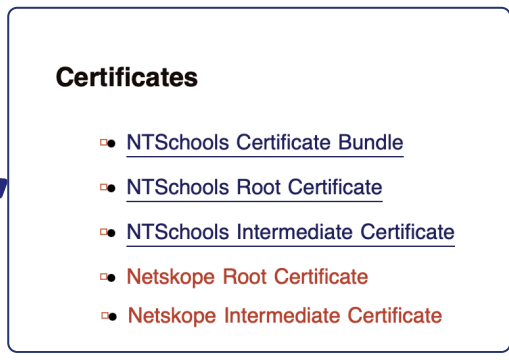

You may need to switch off your proxy settings before you join the WiFi. **See Configure Proxy Settings Instructions below.**

DOWNLOAD & INSTALL CERTIFICATES
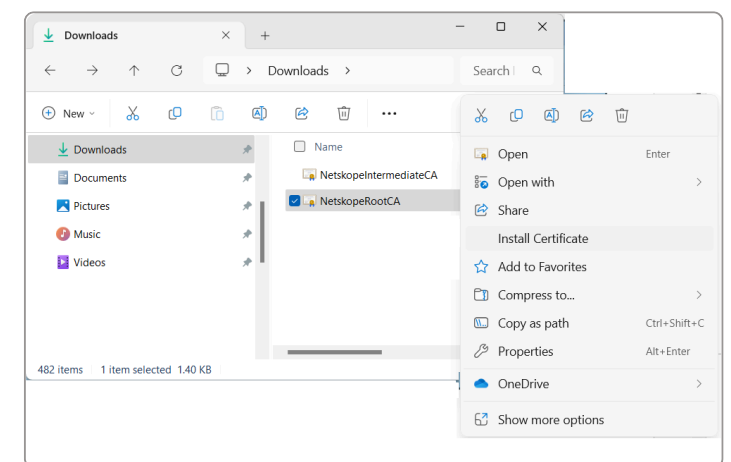

01

1. Open your web browser and in the URL enter: https://cert.education.nt.gov.au

2. Navigate to **Certificates** and download
- Netskope Root Certificate
- Netskope Intermediate Certificate.

Certificates
- NTSchools Certificate Bundle
- NTSchools Root Certificate
- NTSchools Intermediate Certificate
- Netskope Root Certificate
- Netskope Intermediate Certificate

02

Open Windows Explorer to where the certificates were downloaded.
Right-Click **NetskopeRootCA** and choose **Install Certificate**.

03

A security warning may appear about opening the files.
Click **Open**.
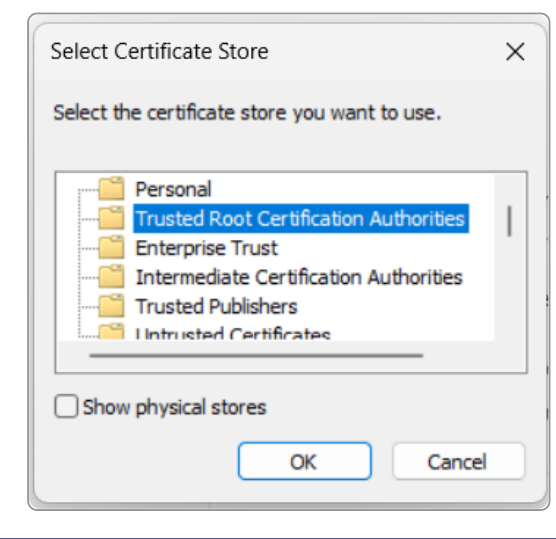

04

Select **Local Machine.**
Click **Next.**

05

Select **Place all certificates in the following store.**
Click **Browse.**

06

Select **Trusted Root Certification Authorities**
Click Ok.

**07**

Click **Next.**

08

Click **Finish.**

09

Install the Netskope Intermediate Certificate **following steps 2 to 8 for NetSkopeIntermediateCA. See the below for details for Steps 02 and 06:**
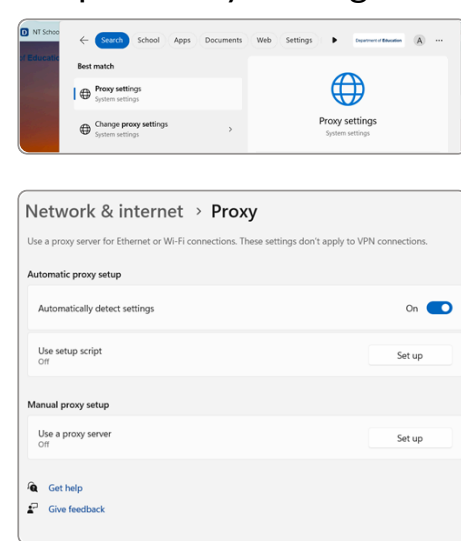

Step 02 - Select **NetSkopeIntermediateCA**

Step 06 - Select **Intermediate Certification Authorities**

## CONFIGURE PROXY SETTINGS

1 Open Proxy Settings

2 Turn off Automatic proxy setup
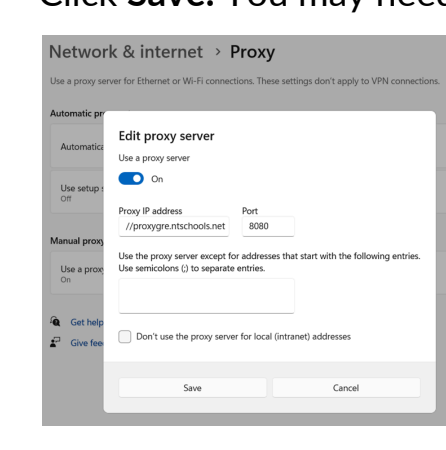

3 Set up the Manual proxy setup. Click Set up

4 Turn Use a proxy server On

5 Enter the following details
Proxy IP address: **http://proxygre.ntschools.net**
Port: **8080**
Click **Save.** You may need to **restart** your laptop.

You might need to turn this off when you are trying to connect to your home WiFi. Remember to turn on when you return to school.
